Students from Our Lady of Providence High School joined with officials from The Center and Verizon Wireless to announce new HopeLine® from Verizon funding that will allow the training to be expanded to additional schools in Southern Indiana. Thanks to the Green Dot program these students have been trained to help establish a culture of healthy relationships among their fellow students.

**BIG THANKS**

Thank you to the groups who supported us during The 2014 Mayor’s Give a Day Week of Service!

**SUPPORTING CLASS**
The Center is the proud recipient of a $1,000 donation from a new project sponsored by the University of Louisville’s Life Span Human Development class.

Students in the class participated in various service-learning projects during the semester. At the end of the semester, students made a formal presentation on their project and then voted to select one non-profit organization to receive their $1000 Philanthropy Award.

**SOS Supplies Over Seas**

Locally run nonprofit SOS is helping near and far. SOS is partnering with The Center to supplement hygiene and medical supplies that are needed by families at The Center. We are excited about our partnership.

**GIVE LOCAL LOUISVILLE**

On May 6, the Community Foundation of Louisville hosted a 24-hour online “Give Day” to support local organizations. The one day giving event raised a total of $1,888,760 from 2,563 individual donors. The Center for Women and Families raised $10,660.54. Thank you for giving local and thank you to the Community Foundation of Louisville!

**GREEN DOT IS GROWING!**

**CAN YOU PARTNER WITH US FOR A CAUSE?**

The Center for Women and Families has been partnering with Heine Brothers since 1994. In that time staff members have donated thousands of pennies from The Tip Jar each year that have added up to be a lot of support for The Center.

In addition, 50 cents from each bag of Ronda’s Blend sold is donated to The Center. This amounts to hundreds of dollars each year. It’s pennies and partnerships just like this one that help keep our services free of charge.

Join us as we raise awareness about this issue that affects 1 in 4 men and 1 in 3 women.

Businesses, organizations, and groups can partner with us to raise awareness and funds to keep our services free of charge to Kentuckiana. Contact Mary Dorrell at Mary.Dorrell@cwfempower.org or media@cwfempower.org if you would like to help raise awareness during Domestic Violence Awareness Month this October.

Will You Be Our Rainbow After the Storm?

In November all CWF staff gathered to take part in a 2-day Trauma Informed Care (TIC) training designed by The Center. This training is a comprehensive TIC training framework that involves understanding, recognizing, and responding to the effects of all types of trauma. Trauma Informed Care also emphasizes physical, emotional, and spiritual safety for everyone we interact with, clients and each other. In order to provide excellent and comprehensive services to our clients and ourselves, The Center adopted Trauma Informed Care (TIC) as a main framework for all agency programs and plans on the horizon. We are proud to say that despite everything, we continue to provide our services without interruption.

Looking to the Future

“The Center has compiled a list of people who would be interested in hearing about updates. We are currently looking for more volunteers to help us complete this project. If you would like to be included on this list, please contact the office at 502-581-7261. Thank you!”

Temporary Relocation Information

TRAUMA INFORMED CARE

The Center for Women and Families (CWF) is committed to providing excellent and comprehensive services to our clients so that they may recover from trauma. Relocation information is available on our website at www.thecenteronline.org.

In November all CWF staff gathered to take part in a 2-day TIC training. Staff learned what TIC care is, how to respond to a severe and serious event when TIC care has facilitated successful treatment. It was an important step in the multi-year process allowing TIC to be fully institutionalized. The Center continued to provide excellent and comprehensive services to our clients and ourselves. This training is a comprehensive TIC training framework that involves understanding, recognizing, and responding to the effects of all types of trauma. Trauma Informed Care also emphasizes physical, emotional, and spiritual safety for everyone who interacts with clients and each other. In order to provide excellent and comprehensive services to our clients, Trauma Informed Care (TIC) is fully investing in comprehensive TIC.
